

Aero Data Server (ADS) for macOS ReadMe

General Information

Aero Data Server (ADS) is a locally hosted Wi-Fi solution that enables Aero App on iOS and Android user devices to quickly and securely download aeronautical data. ADS automatically downloads the latest Aero App data from the cloud, allowing crew members to access data efficiently over a dedicated local network.

1. Application Version: Aero Data Server (ADS) macOS Version 1.2510

2. Replaces: Aero Data Server (ADS) macOS Version 1.2506

3. Version Highlights:
